NOTES

- Row 14: spaces around the name were left off. Nothing inside it was changed.
- Row 30: spaces around the size were left off. Nothing inside it was changed.
- Row 33, Łukasz Wójcik: an accent is stored as a separate character. The name is kept exactly as sent, and may compare unequal to a name that looks the same.
- Capitals differ from the rest of the roster: JAYDEN BROOKS is in all capitals. Each prints exactly as written. Ask the customer if that is not what they want.
- The customer's sheet says its total is 29; this order adds up to 28 garments. The sheet's figure is only compared, never used.
